DIFFERENTIATORS

Prior Cyber Operating SMEs on the Air Force Network

Prior-Service members ease transforming government intent to deliberate actions and results.

Led to completion multiple multi-million-dollar projects enhancing the Cybersecurity posture of the Air Force network.

EXECUTIVE SUMMARY

Mimirtum, specializes in advanced cybersecurity solutions tailored for enterprise-level operations. Our core focus on vulnerability management ensures networks are protected against cyber threat actors saving you and your users time, money, and resources. With extensive expertise in the Air Force's enterprise ACAS environment, we can provide robust security solutions at scale. Committed to excellence, we deliver tailored strategies to safeguard critical assets and uphold the highest standards of cyber defence.

CORE COMPETENCIES

Enterprise Vulnerability Management
- Assessment – Tenable (ACAS) | Tanium (ARAD)
- Patch – Microsoft Products (MECM | Intune)
- Endpoint Protection – Microsoft Products (MDE), Trellix (Endpoint Security Suite)

Enterprise IT Management
- Risk Management Framework (RMF) – ATOs and IATTs
- Incident Tracking – BMC Remedy, Service Now, and JIRA
- Engineering Architecture – Splunk, AWS, and Azure
- Zero-Trust Framework – Illumio and ISE

Linux System Administration
- Deployment, Sustainment, and Operations
- Virtualization and Containerization
- Backup and Recovery
- System configuration and Optimization

Programming & Automation
- Tailor-Made Software Development
- Web Application Development (Tenable & Trellix API Integrations)

Program Management
- Support & Fulfil Business Strategies

PRIOR EXPERIENCE

- Engineered vulnerability data feed and integration with $65 million dollar DoD Big Data Platform (DoD) used across multiple agencies.
- Revolutionized Air Force Cyber hygiene by developing start to end solution identifying and quarantining endangered devices.
- Trained hundreds of Airmen and DoD Civilians detailing DISA's best practices, current cyber threat actors, and the latest DoD policies.
- Authored the Air Force's vulnerability management policy, guides, and documentation through-out the previous 8 years.
